

Journal of Discrete Mathematical Sciences & Cryptography

VOLUME 8

NUMBER 1

APRIL 2005

ISSN 0972-0529

CONTENTS

S. J. WANG : Vowel-consonant addressing mode on hashing for English letter-oriented keys	1–25
M. POULOS, E. KAFETZOPOULOS, M. RANGOSSI AND F. GEORGIACODIS : Statistical evaluation of computational geometry and Neural network classification methods for person identification purposes via the EEG	27–47
Q. M. AL-HASSAN : On inverses of tridiagonal matrices	49–58
B. BEDE, G. IOVANE AND I. ESPOSITO : Fuzzy Fourier transforms and their application to fingerprint identification	59–79
P. BALASUBRAMANI AND R. VISWANATHAN : Characterizations of the 0-distributive poset	81–98
P. NATH : On the measurable solutions of some functional equations useful in information theory	99–115
B. EFFANTIN AND H. KHEDDOUCI : Exact values for the b -chromatic number of a power complete k -ary tree	117–129
D. PELUSI : Fuzzy systems	131–136
