# Journal of Discrete Mathematical Sciences & Cryptography

---

VOLUME 12      NUMBER 2      APRIL 2009      ISSN 0972-0529

---

## CONTENTS

A. NITAJ : Application of ECM to a class of RSA keys	121–137
M. SAHA AND D. ROYCHOWDHURY : Provably secure key establishment protocol using one-way functions	139–158
A. LIZZIO AND M. A. MUNDA : Maximum embedding of a $E_2(v - w, 4, 1)$ into a $P(v, 4, \lambda)$	159–166
M. SATTANATHAN AND R. KALA : Degree prime graph	167–173
Y. ÇENGELLENMIŞ : The gray image of the cyclic codes over $IF_2[u]/\langle u^2 - 1 \rangle$	175–178
T. T. CHELVAM AND S. R. CHELLATHURAI : A note on split domination number of a graph	179–186
S. FERRI : On class $[m, n]_1$ $k$ -sets in $PG(2, 3)$	187–191
Y. S. PAWAR AND P. V. PATIL : Semiprime elements and relative annihilators in multiplicative lattices	193–204
C. T. ARTIKIS AND P. T. ARTIKIS : Integral part models in information systems and educational processes	205–215
C. C. WU, Y. L. WU AND P. C. YANG : Multiple attribute decision making assessment on the notebook computer industry performance	217–237
Y. CENGELLENMIS : On $(1 - u^2)$ -cyclic and cyclic codes over $IF_p + uIF_p + u^2IF_p$	239–243
A. ELUMALAI AND G. SETHURAMAN : Gracefulness of union of cycle with parallel chords and complete bipartite graphs or paths	245–252
