

Journal of Interdisciplinary Mathematics

VOLUME 13 NUMBER 5 OCTOBER 2010 ISSN 0972-0502

CONTENTS

- K. KORRES AND E. TSAMI : Supporting the development of critical thinking skills in secondary education through the use of interdisciplinary statistics' and mathematics' problems 491–507
- M. A. GEORGIACODIS AND P. N. GEORGIADIS : On the identification of carriers, II. (Integral domains) 509–521
- A. A. KAMIL, A. MUSTAFA AND K. IBRAHIM : Mean absolute negative deviation measure for portfolio selection problem 523–539
- S. M. STEFANOV : Solution of some convex separable resource allocation and production planning problems with bounds on the variables 541–569
- D. F. HAIGHT : Generalizing Riemann: from the L -functions to the Birch/Swinnerton-Dyer conjecture 571–599
