Journal of Interdisciplinary Mathematics

VOLUME 12 NUMBER 3 JUNE 2009 ISSN 0972-0502

CONTENTS

M. KUMAR, S. R. SINGH AND R. K. PANDEY : An inventory model with quadratic demand rate for decaying items with trade credits and inflation	331–343
H. C. P. YANG AND C. T. LIU : Modelling the non-linear effects on loan-level prepayment rates: evidence from adjustable-rate equity loans	345–366
S. NOCERA : A heuristic solution for the yearly capacity of an intermodal terminal	367–393
J. CHASKALOVIC : New mathematical models for media exposure	395–408
J. CHASKALOVIC : Gravitation theory for mathematical modelling in geo-marketing	409–420
D. K. NAGAR AND J. M. OROZCO-CASTAÑEDA : Generalized bivariate beta type 1 distribution	421–429
S. MINKEVIČIUS : Simulation of the idle time in multiphase queues	431–437
K. C. HUNG, Y. W. WOU, S. P. LI AND P. JULIAN : Note on inexact optimal solution of fuzzy mathematical programming	439–443
O. FERRI AND S. FERRI : On $(q + 1)$ -caps, $(q + 1)$ -arcs and normal rational curves of $PG(r, q)$	445–450
