

**Journal of
Interdisciplinary Mathematics**

Index of Volume 1 (1998)

Number 1, February

- J. BRACKETT : Children's Conceptualization of infinity:
the association of mathematical context and middle-grade
students' responses to tasks involving infinity 1-31
- F. D. GYLYS-COLWELL AND M. A. KARLS : Local properties of
solutions of a differential equation via normed linear spaces 33-48
- B. MANDAL AND A. K. PAL : Order level inventory system with
ramp type demand rate for deteriorating items 49-66
- H. ZEITLER : About a sculpture of St. George 67-92
- J. W. WU AND L. Y. OUYANG : Two characteristic properties of
the exponential distribution based on order statistics 93-100

Number 2-3, June-October

| | |
|---|---------|
| C. Y. MA : Estimating mortality for pension and postretirement benefit | 101–116 |
| P. KOHN : An algorithm for constructing diagrams of two-bridge knots and links with period two | 117–128 |
| K. K. DEWAN AND A. A. BHATT : On the maximum modulus of polynomials not vanishing inside the unit circle | 129–140 |
| S. F. HASSANIEN : On special line congruences and their Klein images on the absolutum of the 5-dimensional elliptic space S_5^e | 141–147 |
| J. W. WU AND L. Y. OUYANG : An identity for the conditional expectations of functions of adjacent order statistics | 149–159 |
| P. SINGH AND P. K. SAXENA : Total shipping cost/completion-date trade-off in transportation problem with additional restriction | 161–174 |
| M. J. RYAN : Intervening duality based analysis of nonconstant sum bimatrix games | 175–196 |
| <i>Index of Volume 1 (1998)</i> | 197 |
