

**Journal of
Interdisciplinary Mathematics**

Index of Volume 4 (2001)

Number 1, February

MD. A. U. KHAN : A stochastic control model and dynamic control policy for bribery involving a dynamic pay	1–8
F. FINESCHI AND R. GIANNETTI : Evaluation of optimization by a total order in \mathcal{R}^n	9–24
A. MATURO AND B. FERRI : Classifications and Hyperstructures in problems of Architecture and Town-Planning	25–34
C. CATTANI : Haar Wavelet Splines	35–47
D. LA TORRE AND M. ROCCA : A characterization of almost everywhere convex functions	49–60
L. CAROSI : On the supremum in linear fractional programming with respect to any closed unbounded feasible set	61–71
P. CHU AND P. S. CHEN : Solving stochastic demand inventory models with uncertain data	73–81
K. S. WU AND I. C. LIN : Lead time reduction in continuous review inventory model	83–92
N. K. GOVIL AND G. NYUYDINKONG : On maximum modulus of polynomials not vanishing inside a circle	93–100

Number 2-3, June-October

P. DENG, P. S. CHEN AND P. CHU : Cohen's inventory model revisited	101-111
W. FEI, J. K. LIU AND P. CHU : Discussions on the partially backlogging inventory model	113-122
T. S. LAN, L. J. YEH AND G. J. LAY : A computerized decision tool to optimize tool life for maximal profit	123-137
C. C. TSAI : A theoretical study and forecasts of fuzzy time series	139-153
G. TZAVELAS AND M. KARAMOLENGOS : A characterization of Morris family of distributions with the help of estimating functions	155-164
M. E. METAWEH : On the art of modeling	165-177
C. J. CHAO : Inventory models with variable lead time taking account of time value	179-193
R. KHATREE : On the calculation of antieigenvalues and antieigenvectors	195-199
