

**Journal of
Interdisciplinary Mathematics**

Index of Volume 5 (2002)

Number 1, February

- P. S. CHEN AND K. L. YANG : Approximation of the partially backlogging ratio of inventory models 1–10
- H. J. SHEU, S. WU AND J. H. PAN : An estimation process to the value for voided tickets 11–27
- I. P. PAVLOTSKY AND M. STRIANESE : Minimal distance between the interacting points as a consequence of the singular set of Euler-Lagrange equations 29–39
- U. UFKUPE AND K. P. MCHALE : Inequalities for buckling of a clamped plate 41–47
- D. B. ROWE : A Bayesian approach to blind source separation 49–76
- L. J. YEH AND T. S. LAN : Quantitative production scheme model for an automated manufacturing system 77–83
- N. A. KOFAHI, M. N. MESMAR AND S. H. GHARAIBEH : A computer algorithm for the evaluation of heavy metal toxicity in fresh water habitats 85–96

Number 2, June

C. TOSONE : A contact problem of the structural engineering	97–110
C. TOSONE AND A. MACERI : On the classic formulation of an unilateral problem of the structural engineering	111–125
M. CERASOLI AND A. FEDULLO : The inclusion-exclusion principle	127–141
K. S. CHANG, D. H. CHO, T. S. SONG AND I. YOO : Evaluation formulas for Fourier-Feynman transform over paths in abstract Wiener space	143–164
G. P. CRESPI AND G. GIORGI : Sensitivity analysis for variational inequalities	165–176
A. BAKLIZI : Estimation of the Pareto scale parameter based on grouped data	177–182
S. JIBRIN : Detecting redundancy in optimization problems over intersection of ellipsoids	183–194

Number 3, October

S. DANESHVAR, G. R. JAHANSHAHLOO, A. MEMARIANI AND S. S. MOHTADI : Sensitivity analysis of extreme efficient decision making units in DEA	195–201
F. FABRIS : On a measure of possibilistic non-compatibility with an application to data transmission	203–220
E. K. MARAGOS AND D. K. DEPOTIS : Comparing multiobjective mathematical programming methods in the light of data envelopment analysis	221–230
Y. SINGH AND C. S. RAI : An independent component analysis technique for blind source separation	231–241
B. K. DASS, G. SOBHA AND M. ZANNETTI : High-density CT burst error-locating linear codes	243–249
C. T. LIN AND C. R. WU : Real options and the timing of decision for the optimal location under exchange rate uncertainty	251–265
R. IEMBO : Meromorphic functions on elliptical curves	267–292
C. H. LIN AND J. H. LEE : An efficient hierarchical key management scheme based on elliptic curves	293–301
S. V. ALEXOPOULOS : A Fast conic method for function minimization	303–311
H. C. WU AND C. T. SUN : An analytical frame work for the Prisoner's Dilemma : Finite state machine representation for interactions between deterministic strategies	313–338
<i>Index of Volume 5 (2002)</i>	339–340
