

Journal of Interdisciplinary Mathematics

VOLUME 7

NUMBER 2

JUNE 2004

ISSN 0972-0502

CONTENTS

W. C. LEE, J. W. WU AND W. B. HOU : Inventory model with a service level constraint for variable lead time demand with the mixtures of distribution	125-151
M. A. U. KHAN : Terrorism control model and control policy	153-164
A. S. BAKLIZI : Bayesian prediction intervals for ranges and waiting times	165-171
M. R. MOLAEI : Top spaces	173-181
L. A. RINCÓN : Path integral representation for the solution of a stochastic Schrodinger equation driven by a semimartingale	183-204
P. NATH : On the measurable solutions of a functional equation related to some measures of entropy in information theory	205-219
W. MOTTA, M. RACHIDI AND O. SAEKI : Generalized Fibonacci sequences and Ostrowski's theorem	221-231
J. GARCÍA-LAPRESTA AND C. RODRÍGUEZ-PALMERO : Some algebraic characterizations of preference structures	233-254
M. S. ALAM, M. B. HOSSAIN AND M. A. AKBAR : On a special condition of over-damped nonlinear system with slowly varying coefficients	255-260
