## CONTENTS

A. GALLO, A. M. PICCIRILLO AND R. TOSCANO : Blow-up results for some nonlinear hyperbolic problems	1–20
R. CAMBINI AND A. MARCHI : A note on the connectedness of the efficient frontier	21–37
A. L. PETRAKIS : The steady states in the Spruce Budworm model : the general case	39–45
C. TOSONE : On an unilateral elliptic fourth order problem	47–58
C. T. TSAO : An extension to benefit/cost based fuzzy MCDM algorithm	59–68
R. B. TAHER, W. IRAOUI AND M. RACHIDI : Approximation of some linear recursive sequences and applications	69–80
K. B. NAM : Automorphisms of radical $W$ -type non-associative algebras I	81–87
H. K. ABDULLAH AND K. T. AL DOSARY : System oscillatory conditions	89–96
M. STRIANESE : On some properties of the singular set of two ODE	97–105
E. A. YOUNESS AND T. EMAM : Strongly $E$ -convex sets and strongly $E$ -convex functions	107–117
W. S. CURRAN : Mathematical proof	119–125
D. KARAYANNAKIS AND M. MAGIROPOULOS : Norm estimates in the Hardy spaces of the disk by use of the Gamma function	127–132
