

Journal of Information & Optimization Sciences

A Journal Devoted to Advances in Information Sciences,
Optimization Sciences and Related Aspects

VOLUME 28 NUMBER 1 JANUARY 2007 ISSN 0252-2667

CONTENTS

J. C. P. YU : An integrated policy of multi-echelon supply chain with dual source for deteriorating items	1-15
J. C. P. YU, H. M. WEE, J. M. CHEN AND F. R. KUO : Solving four-echelon integrated inventory model using a heuristic approach	17-32
S. N. HWANG, C. T. LIN AND W. C. CHUANG : Stock selection using data envelopment analysis-discriminant analysis	33-50
C. CATTANI AND R. D'AURIA : Correlations in DNA sequences	51-65
R. D. H. WARBURTON AND M. L. B. JAZIA : An optimal replenishment policy for an inventory with decaying items and a ramp in demand	67-80
C. N. LIAO : The effects of transaction cost on market transparency when Hotelling market	81-94
T. T. LIN, C. B. CHEN AND P. Y. CHEN : International merger evaluation model with stochastic real exchange rate	95-110
T. T. LIN AND C. J. TU : Decision analysis on upper and lower bounds of optimal loan qualities for financial institution	111-128
C. H. LAI AND F. H. F. LIU : Using data envelopment analysis to solve unconstrained two-objective binary integer linear programming	129-144
M. BJØRNDAL AND K. JØRNSTEN : Pricing in combinatorial auctions	145-158
