

Journal of Information & Optimization Sciences

A Journal Devoted to Advances in Information Sciences,
Optimization Sciences and Related Aspects

VOLUME 28 NUMBER 2 MARCH 2007 ISSN 0252-2667

CONTENTS

T. TANAKA : Prophet inequalities for two-parameter optimal stopping problems	159–172
Y. GAO : Newton method of solving Karush-Kuhn-Tucker systems for a constrained Minimax Problem	173–184
Ş. ÇABUKOĞLU : The use of tolerance limits in production and operations management	185–193
G. TANEJA, D. V. SINGH AND A. MINOCHA : Profit evaluation of 2-out-of-3 unit system for an ash handling plant wherein situation of system failure did not arise	195–204
R. C. CHEN, W. T. LEE AND J. M. LIN : Generic bandwidth allocations for optimal latency guarantees due to overflow traffics by grading method in multimedia environments	205–218
P. C. JHA, A. GUPTA AND P. K. KAPUR : On maximizing the adoption of multi-products in multiple market segments	219–245
Y. C. LIN : A mathematical programming model for multiple integrated MRP planning stages	247–253
P. F. HSU AND M. G. HSU : Optimal selection of medical information system outsourcing vendors for Taiwanese clinics by using analytic hierarchy process and sensitivity analysis	255–277
C. H. CHENG, J. F. WANG AND P. J. CHENG : Application of wavelet transform for evaluation of motor's noise	279–287
K. J. CHUNG AND C. K. HUANG : A simple solution procedure for the (s, Q) inventory system with fast moving items	289–298
V. ARISTIDIS : Max-Min ant system for generator maintenance scheduling in power systems	299–314
