Journal of Information & Optimization Sciences

A Journal Devoted to Advances in Information Sciences,
Optimization Sciences and Related Aspects

VOLUME 29 NUMBER 4 July 2008 ISSN 0252-2667

CONTENTS

C. SUN : Robust convex conic optimization in D-induced duality framework	603–630
P. S. CHEN : A faceted approach to information retrieval	631–658
J. C. LIN AND K. C. WU : Predication of defects in software developing process	659–665
C. H. CHENG AND P. J. CHENG : Design of speed monitoring system for DVD-ROM spindle motor using wavelet transform	667–677
S. K. MISHRA AND N. G. RUEDA : On symmetric duality in mathematical programming with (b, F) -convexity	679–691
G. K. JANSSENS : Chain partitioning as a key element for building vehicle routing problem heuristics	693–703
D. Y. SHA AND P. K. CHEN : The best scope of e-commerce diffusion in a supply-chain operational environment: a global empirical study	705–730
P. J. CHENG, C. H. CHENG AND Y. M. FANG : Design of energy recovery system for electric motorcycles using fuzzy theory	731–743
K. J. CHUNG AND S. D. LIN : An easy-to-use theorem in the EPQ model under two levels of trade credit policy	745–753
T. T. LIN : Two-period duopolistic market entering strategy with penalty cost	755–776
T. T. LIN AND P. C. HUANG : An optimal exchange rate interval in a national wealth model	777–792
H. T. CHANG : A study on the application of neural network to the inter-relationship among Renminbi and foreign currencies	793–804
