

**JOURNAL OF  
INFORMATION & OPTIMIZATION SCIENCES**

**Index of Volume 13 (1992)**

**Number 1, January**

H. MIYAZAKI, Y. SHIBATA AND S. MORI : Transient behavior of the $M/M/2/\infty/FIFO$ queue starting with customers	1-27
W. OGRYCZAK : An Implementation of variable upper bounds via SUB methodology	29-47
K. ALINKEMER AND HASAN PIRKUL : Heuristics with constant error guarantees for the multi center capacitated minimum spanning tree problem	49-71
B. BROCKA : Implementation of deadlock analysis in data flow graphs	73-83
W. F. KLOSTERMEYER : Optimizing searching with self-adjusting trees	85-95
S. Y. WU : Extremal points and an algorithm for a class of continuous transportation problems	97-106
G. M. LEE : Optimality condition in multiobjective optimization problems	107-111
G. C. KOSTAKIS, C. G. KOSTAKIS AND C. TH. CHATZINIKOLAOU : Effect of crosslinks on the viscosity of dilute polymer solutions	113-127
A. MATURO : On some non-standard finitely additive probability measures	129-142
M. A. BERNARD AND B. D. SHARMA : Variable length perfect codes	143-151
C. SAPOUNTZIS : The computation of the cumulative distribution function of the erlang distribution	153-163
P. NATH AND M. M. KAUR : Quasicyclic symmetry and the shannon entropy	165-172
<i>Erratum</i>	173
<i>Book Reviews</i>	175
<i>Announcements</i>	177-182

**Number 2, May**

F. EUGENI AND A. MATURO : A new authentication system based on the generalized affine planes	183–193
N. G. RUEDA, C. SINGH AND C. R. BECTOR : Further properties of $b$ -Vex functions	195–206
M. K. ROY, S. RAHMAN AND M. M. ALI : A class of poisson mixtured distributions	207–218
N. ALEXANDRIS AND E. FOUNDAS : Algorithms and properties on balanced permutations	219–229
Y. YOSHIDA : Zero-sum games for discrete-time multi-armed bandit processes with a generalized discount	231–255
J. M. PALLO : Coding binary trees by words over an alphabet with four letters	257–266
S. INNAMORATI AND G. LO FARO : Constructing steiner triple systems partially embedded in a projective plane	267–277
A. S. ALFA AND Y. P. GUPTA : Quality control in manufacturing systems using $M/G/1$ queues with $(N + 1)$ different inspection rates	279–291
C. SINGH, S. K. SUNEJA AND N. G. RUEDA : Preinvexity in multiobjective fractional programming	293–302
M. A. ALI AND A. A. SMADI : Modified generalized stein estimator of regression coefficients	303–309
D. J. WHITE : Piecewise linear approximations for partially observable Markov decision processes with finite horizons	311–324
S. S. RAO AND V. SRINIVAS : Bounds for design parameters in queues	325–330
O. K. GUPTA : On evaluation of powers	331–336
<i>Book Review</i>	337–338
<i>Announcements</i>	339–341

**Number 3, September**

A. ELLERO AND E. MORETTI : A computational comparison between algorithms for linear fractional programming	343–362
S. S. CHITGOPEKAR AND S. S. RAO : A modification to the holding cost expression in the case of constant lead times and stochastic demands	363–374
C. SUTTI : Optimality conditions in quasidifferentiable mathematical programming	375–381
D. S. KIM : Generalized convexity and duality for multiobjective optimization problems	383–390
F. GIANNETTI AND A. LOMETTI : A comprehensive definition of fire codes	391–398
M. M. SMADI AND M. H. AL-TOWAIQ : A note on jackknife estimators and empirical results for the first and second order autoregressive process	399–406
J-C. PANAYIOTOPOULOS : White, gray and black operational holes : An artificial intelligence approach	407–425
K. TANAKA : An $\varepsilon$ -equilibrium point in an $n$ -person game with constraints	427–436
T. R. GULATI AND N. TALAAT : Proper efficiency in convex vector minimum problems	437–444
<i>Index of Volume 13 (1992)</i>	445–447
<i>Announcements</i>	449–451
