

**JOURNAL OF
INFORMATION & OPTIMIZATION SCIENCES**

Index of Volume 14 (1993)

Number 1, January

D. BHATIA AND P. JAIN : On multi-objective fractional duality for Hanson-Mond classes of functions	1-9
H. AL-RAWASH AND Q. AL-HASSAN : Construction of admissible tests for the geometric distribution with numerical applications	11-19
W. KLOSTERMEYER : On the complexity of scheduling to optimize average response time	21-32
F. RUSOO SPENA : An optimal stepping procedure for the analysis of a class of unilateral structures	33-45
S. R. DAS AND B. M. KHUMAWALA : A Hierarchical framework for decision making in a FMS environment	47-55
M. K. ROY, A. K. ROY AND M. MASOOM ALI : Binomial mixtures of some standard distributions	57-71
R. GUPTA AND M. C. PURI : Extreme point quadratic minimization problem	73-81
K. IWAMURA : Discrete decision process model involves greedy algorithm over greedoid	83-86
O. M. SAAD : An algorithm for solving the integer linear fractional programs	87-93
A. M. AWAD : On the fisher information	95-110
<i>Book Review</i>	111-112
<i>Announcements</i>	113-116

Number 2, May

N. H. SHAH AND Y. K. SHAH : Probabilistic time scheduling model for exponentially decaying inventory under temporary price discount	117-124
S. A. ZENIOS AND M. S. SHTILMAN : Constructing optimal samples from a binomial lattice	125-147
G. M. LEE AND D. S. KIM : On converse duality for nonsmooth optimization problem	149-153
W. ABU-DAYYEH AND M. S. AHMED : A double inequality for the tail probability of standard normal distribution	155-159
S. K. BHATTACHARJEE : Tests of equality of parameters of two normal populations in bayesian viewpoint	161-166
MAJ. J. V. SIMONS, JR AND B. M. KHUMAWALA : On the modeling tactics of research extensions in production/operations management	167-188
Q. M. AL-HASSAN : On the solution of nonlinear programming problems with equality constraints via continuation using special LU factorization	189-201
D. J. WHITE : An heuristic for multi-dimensional Markov decision processes	203-219
<i>Announcements</i>	221-224

Number 3, September

D. J. WHITE : Finding optimal survey policies via adaptive Markov decision processes	225–239
P. TIAN AND Z. YANG : An improved simulated annealing algorithm with genetic characteristics and the traveling salesman problem	241–255
G. K. JANSSENS AND J. VAN DEN BROECK : Outliers, sample size and robust estimation of stochastic frontier production models	257–274
C. R. BECTOR, O. HAWALESHKA AND A. GILL : The Equipment replacement problem : a simple solution technique	275–288
A. AL-RAYYEL : On Transitive subgroups of S_{18}	289–308
D. UMBACH AND M. M. ALI : Conservative spacings for the estimation of functions of location and scale	309–319
D. BHATIA AND S. TEWARI : Multiobjective fractional duality for n -set functions	321–334
R. K. TUTEJA AND S. CHAUDHARY : Information energy of type (α, β) with preference for bivariate probability distribution	335–340
<i>Book Review</i>	341–343
<i>Announcements</i>	345–347
