

**JOURNAL OF
INFORMATION & OPTIMIZATION SCIENCES**

Index of Volume 19 (1998)

Number 1, January

H. A. MUTTLAK AND W. ABU-DAYYEH : Testing some hypotheses about the normal distribution using ranked set sample : a more powerful test	1-11
G. M. LEE, D. S. KIM AND C. L. JO : Duality for multiobjective variational problems with generalized invexity	13-23
M. J. RYAN : Multiple criteria and framing of decisions	25-42
S. P. LAN AND W. J. WAN : Method of evaluating investment in inventory policy under inflation	43-56
W. T. YANG AND C. M. KUO : From the sides of firm to manage the salesforce compensation plans	57-68
W. ABU-DAYYEH AND H. AL-RAWWASH : On the LRT for the multidimensional exponential family under restricted alternative space	69-72
B. MOND AND J. ZHANG : Generalized dual to the monotone nonlinear complementarity problem	73-86
J. ZHANG AND B. MOND : Higher order duality and matrix game equivalence	87-96
O. M. SAAD AND J. B. HUGHES : Bicriterion integer linear fractional programs with parameters in the objective functions	97-108
F. GLOVER, C. C. KOU AND K. S. DHIR : Heuristic algorithms for the maximum diversity problem	109-132
R. CAMBINI : Composition theorems for generalized concave vector valued functions	133-150
<i>Announcements</i>	151-152

Number 2, May

H. J. CHANG AND U. T. LAI : Empirical comparison between two k -shortest path methods for the generalized assignment problem	153–171
T. NAKAI : Optimal decision of price and stock level in consideration of the influence for demand	173–183
G. FERRI AND J. LAHR : The determination of loaded ladder network input equivalent noise	185–192
L. EGGHE : A metric characterization of the Lorenz dominance order	193–208
B. A. H. ABUL-HUDA : Multi-media and library systems-organizations and architectures	209–222
P. SADEGH, L. H. HANSEN, H. MADSEN AND J. HOLST : Input design for linear dynamic systems using maxmin criteria	223–240
S. B. KANG AND Y. S. CHO : Jackknife and bootstrap estimation of reliability function in an exponential distribution	241–246
G. FERRI AND J. LAHR : The exact simulation of an electricline by ladder networks	247–256
H. J. CHANG AND S. Y. LIN : The electoral perception analysis of the presidential candidates in Taiwan	257–264
K. KUMAR AND D. S. GILL : On forecasting economic time series data : a comparative study	265–272
R. ZHAO, K. IWAMURA AND B. LIU : A genetic algorithm for multivariate isotonic regression	273–284
M. K. ROY, S. K. SINHA AND M. M. ALI : Some negative binomial mixtured distributions	285–302
<i>Announcements</i>	303–304

Number 3, September

J. Y. LEE, J. S. WOO AND S. W. RHEE : A transformed quantile-quantile plot for normal and bimodal distributions	305–318
M. G. MURCIANO : Congruences associated with the kernel and the trace operators for primitive regular semigroups	319–336
M. S. CHEN AND C. B. CHEN : A dynamic model of the effect of consumer's internal reference prices adjustment on demand function shifting	337–352
H. J. CHANG AND M. C. LIU : A statistical fitting model in Taiwan's stock price	353–371
G. GIORGI AND A. GUERRAGGIO : Constraint qualifications in the invex case	373–384
Y. YOSHIDA : An optimal stopping zero-sum game in discrete-time multi-armed bandit processes	385–402
S. B. KANG AND Y. S. CHO : Approximate MLE of exponential distribution for truncated samples	403–409
K. J. CHUNG : Economic order quantity model when delay in payments is permissible	411–416
P. ALSTROM : A note to 'A modification to the holding cost expression in the case of constant lead times and stochastic demands'	417–421
G. CHONDROCOUKIS AND E. PAPATHANASIOU : Designing flexible and intelligent interface of a group decision support system for small and medium sized enterprises	423–432
J. W. WU AND W. C. LEE : Characterization of discrete mixtures of exponential distribution based on conditional expectation of order statistics	433–443
<i>Book Review</i>	445–446
<i>Announcements</i>	447–448
<i>Index of Volume 19 (1998)</i>	449–451
