

# Journal of Information & Optimization Sciences

## Index of Volume 3 (1982)

### Volume 3, Number 1

- B. J. LARGAY, J. A. LARGAY III AND D. YOUNG : A New Computational Approach to Cost Variance Investigation Problems 1-16
- P. JOLLY : A Method for Bounded Variable Linear Programs using One Upper Bound Constraint Only 17-24
- M. A. HANSON AND B. MONO : Further Generalizations of Convexity in Mathematical Programming 25-32
- K. J. ENGEMANN : Multiple Modular Design over a Finite Time Horizon 33-51
- M. O. LOCKS : Quinean Minimization : Some Suggested Modifications 52-70
- P. C. BAGGA AND K. KHURANA : The Single Machine Problem with Quadratic Penalty Function 71-76
- B. K. DASS : Burst Error Locating Linear Codes 77-80
- M. KUNZE : Some Remarks on Linear Mappings in Cryptography 81-86

*Announcements*

**Volume 3, Number 2**

M. W. A. SMITH AND A. P. ROBERTS : The Robustness of the Fixed Point Smoothing Algorithm	87–104
B. MOND AND T. WEIR : Duality for Fractional Programming with Generalized Convexity Conditions	105–124
J. NAKAGAMI : A Contraction Theorem in Inventory Problems	125–132
G. JUMARIE : Subjective Information and Limits in Learning Process without Teachers	133–148
S. GUIASU, R. LEBLANC AND C. REISCHER : On the Principle of Minimum Interdependence	149–172
S. BANSAL : On Extreme point Programming Problem	173–184
P. JOLLY : Postoptimality Analysis of Quadratic Programs	185–191
<i>Book Review</i>	192–193
<i>Dissertation Abstract</i>	194
<i>Announcements</i>	

**Volume 3, Number 3**

Obituary – Prof. John Werner Abrams	195
F. GLOVER : Transformations Enlarging the Network Portion of a Class of LP/Embedded Generalized Networks	196–208
T. ODANAKA : Deterministic Inventory Problem with Non-Constant Demand	209–228
E. SPIEGEL AND S. K. WASAN : On Product of Reed Muller Codes	229–238
S. K. WASAN : The Nonexistence of (15, 8, 5) Code	239–240
R. A. GUPTA : A priority Queue with General Bulk Service	241–250
P. JOLLY : Edge-Connectivity on the Assignment Polytope	251–256
P. JOLLY : Some Aspects of Maximum Returns from Investments	257–261
N. DATTA : Efficiency in Multi-Objective Fractional Functional Programming	262–268
L. K. PATEL AND U. DAVE : Discrete-in Time Deterministic Inventory Model with Time Proportional Demand	269–276
E. MENIPAZ : A Current Taxonomy of Inventory Systems	277–289
S. PRABHA : Parametrizing a Column Vector in a Linear Fractional Programming Problem	290–304
<i>Book Review</i>	305
<i>Announcements</i>	306
