

## Journal of Information & Optimization Sciences

### Index of Volume 8 (1987)

#### Number 1, January

- P. CAMION, B. COURTEAU, G. FOURNIER AND S. V. KANETKAR : Weight distribution of translates of linear codes and generalized plethysm identities 1-23
- J. NEVES AND E. J. LUSK : Prediction of group priorities from individual priority information 25-31
- V. L. HILL AND W. R. BLISHKE : An assessment of alternative models in warranty analysis 33-55
- T. S. CHOI AND R. R. LEVARY : Payback method in capital budgeting : A new insight 57-63
- U. KUMAR AND C. R. BECTOR : Maximum entropy approach for some brand switching models with different mathematical structures 65-75
- S. I. GASS : On artificial variables and the simplex method 77-79
- E. GUNEL : Deciding on manpower needs using expert opinions 81-89
- M. C. ER : An algorithmic solution to the multi-tower hanoi problem 91-100
- I. C. GOULTER AND R. N. RAMLOGAN : A mixed integer approach to resource levelling 101-111
- G. DIAL : On non-additive measures of inaccuracy and a coding theorem 113-117

*Announcements*

**Number 2, May**

- V. KUMAR, J. N. KAPUR AND O. HAWALESHKA : On throughput and congestion measures for closed and semi-open network of queues models for flexible manufacturing systems 119–139
- S. SAKAI : A simplified two-person poker with a noisy communication channel between players 141–153
- R. R. EGUDO : Proper efficiency and multiobjective duality in nonlinear programming 155–166
- V. KUMAR, J. N. KAPUR AND O. HAWALESHKA : On the interrelationship between semi-open and closed queuing network models for flexible manufacturing system 167–187
- H. MIYAZAKI AND Y. SEKI : Principal components and Principal clusters 189–199
- M. A. HANSON AND B. MOND : Convex transformable programming problems and invexity 201–207
- M. A. ALI : Effect of sample size on the size of the coefficient of determination in simple linear regression 209–219
- C. A. BOTSARIS AND S. G. TZAFESTAS : Stabilization and optimal control of symmetrically  $\varepsilon$ -coupled bilinear systems via quadratic state feedback controllers 221–231
- U. CAPAR : A dynamic programming type algorithm for finite decision problems in Banach spaces 233–241

*Announcements*

**Number 3, September**

I. M. BOMZE : Remarks on the recursive structure of copositivity	243–260
J. BOWERS, I. HOLUBEC AND B. KHUMAWALA : Computer integrated manufacturing : tomorrow's technology today	261–270
F. GLOVER AND F. HARARY : A simple criterion for a graph to have perfect matching	271–273
Y. CENSOR AND J. SEGMAN : On block-iterative entropy maximization	275–291
M. G. EVANS : Moderated regression : legitimate disagreement, confusion and misunderstanding	293–310
F. M. E. RAISZADEH, P. DILEEPAN AND T. SEN : A single machine bicriterion scheduling problem and an optimizing branch-and-bound procedure	311–321
J. S. CHAWLA : $\delta$ -Information function, $\delta$ -entropy and their properties	323–333
T. SHIRAURA AND J. SRIVASTAVA : Characteristic polynomial of the information matrix of a balanced resolution V design of the $4^n$ type approached through the $2^n$ factorial	335–357
<i>Index of Volume 8 (1987)</i>	359–360
