

**JOURNAL OF
INFORMATION & OPTIMIZATION SCIENCES**

Index of Volume 9 (1988)

Number 1, January

M. YOSHIDA : A construction scheme of the minimal dominating supermartingale arising in the discrete parameter optimal stopping problems	1-16
Y. TERAOKA : A game of timing in which the players improve their information patterns	17-31
R. KHORRAMAHGOL, K.Q. DADZIE AND I.P. AKAH : Delphic goal programming as a planning tool in LDCs : an application	33-40
R. KHORRAMSHAHGOL AND H. AZANI : A decision support for effective systems analysis and planning	33-40
M.C. ER : A parallel algorithm for cost-optimal generation of permutations of r out of n items	53-56
M.C. ER : Ranking and unranking of non-regular trees	57-64
M.S. ABU SALIH, M.A. QADER AND M.A. ALI : Approximate Fiducial Bounds of Reliability of a Series System	65-72
Y.Q. GUO, G. THIERRIN AND S.H. ZHANG : Semaphore Codes and Ideals	73-83
A.K. MD. E. SALEH, K.M. HASSANEIN AND M.M. AU : Estimation and testing of hypotheses about the quantile function of the norma distribution	85-98
G.H. LANDER : Auditing just-in-time systems	99-111
L. BANDOPADHYAYA, H.C. BAKSHI AND M.C. PURI : Multi-index transportation problem with mixed type of axial constraints	113-132
G.H. LANDER : Inventory control in the MRP and JIT environment	133-140
H.J. WEINER : Joint moments of the maximum in a critical branching process	141-146
<i>Book Reviews</i>	147-150
<i>Announcements</i>	

Number 2, May

B.E. GRAHAM-MOORE AND L.M. SEIFORD : A DSS for managing ERO/affirmative action requirements	151–158
S.G. NASH : Avoiding modified matrix factorizations in Newton-like methods	159–182
M.C. ER : A minimum space algorithm for solving the towers of hanoi problem	183–191
M.C. ER : Derivation of identity equations of the order- k Fibonacci numbers	193–198
V. LYALL : Duality theory in inexact multiobjective programming	199–206
M. S. ABU-SALIH, M.A. ALI AND M.A.Q. YOUSEF : On some shrinkage techniques for estimating the parameters of exponential distribution	207–214
A. HALLEFJORD AND K. JORNSTEN : Constraint generation and surrogate relaxation	215–218
C. SINGH : Generalized fractional programming with Hanson-Mond classes of functions	219–230
C. SINGH : Duality theory in multiobjective differentiable programming	231–240
F. EUGENI AND B. RIZZI : A new generalization of three identities of Ramanujan and Suryanarayana	241–254
R.R. EGUDO AND M.A. HANSON : Converse duality in non linear programming	255–262
L. BERARDI : Blocking sets in the large Mathieu designs, II : the case $S(4, 7, 23)$	263–278
S. S. RAOUF AND N.M. RASHID : A new direct search optimization method	279–285
T. WEIR : Subgradient duality using Fritz John conditions	287–296
<i>Book Reviews</i>	297–298
<i>Announcements</i>	

Number 3, September

F. GLOVBR AND C.K. JONES : A stochastic generalized network model and large-scale mean-variance algorithm for portfolio selection	299–316
J. CONAN : A transform approach to Alternant and the like error correcting codes	317–330
B. MONO, I. HUSAIN AND M.V.D. PRASAD : Duality for a class of nondifferentiable multiple objective programming problems	331–341
M.C. ER : An $O(k^2 \log(n/k))$ algorithm for computing generalized order- k fibonacci numbers with linear Space	343–353
A.H. KHAN AND M.S. ABU-SALIH : Characterization of the weibull and the inverse Weibull distributions through conditional moments	355–362
I.C. GOULTER : Measures of inherent redundancy in water distribution network layouts	363–390
B. AL-EIDEH, M.S. ABU-SALIH AND U. CAPAR : Consistency of maximum likelihood estimators for multiparameter Markov chains	391–404
M.S. ANU-SALIH, M.A.Q. YOUSEF AND M.A. ALI : On Bayes and empirical Bayes estimation of parameters and reliability function of two-parameter exponential distribution	405–413
M.C. ER : The weakest liberal preconditions of non deterministic machines and robust programs	415–420
S.S. CHITGOPEKAR : Some observations on the EOQ models	421–426
B. MICALE : Pairwise disjoint intersections among Steiner quadruple systems	427–436
C.K. JGGI AND S.P. AGGARWAL : Optimum inventory level with partial backlogging	437–444
A.K. MD. E. SALEH, K.M. HASSANEIN AND M.M. AU : Linear estimation and tests of quantiles of logistic distribution based on selected order Statistics	445–464
<i>Book Reviews</i>	465–467
<i>Index of Volume 9 (1988)</i>	469–471
<i>Announcements</i>
