

# Journal of Information & Optimization Sciences

A Journal Devoted to Advances in Information Sciences,  
Optimization Sciences and Related Aspects

---

VOLUME 24

NUMBER 2

MAY 2003

ISSN 0252-2667

---

## CONTENTS

Y. J. CHEN AND S. Y. LEE : An efficient scheme to achieve weighted max-min fairness on bandwidth allocation	211-237
L. Y. OUYANG, Y. S. NI AND M. H. WU : Examining the relationship between money uncertainty and inflation in Taiwan	239-248
Y. C. CHEN : A probabilistic approach for traditional EOQ model	249-253
L. Y. OUYANG, C. C. WU AND K. W. CHUANG : Economic order quantity with partial backorders under supplier credit	255-267
H. C. CHANG : An investigation of fuzzy lost sales on the periodic review inventory model with variable lead time	269-282
K. J. CHUNG : Efficient algorithms for economic designs of $\bar{X}$ control charts for two manufacturing process models	283-315
S. K. LIANG, K. S. CHEN AND Y. H. HUNG : Measuring banking operation performance by applying a process capability index	317-328
K. J. CHUNG AND Y. F. HUANG : Economic ordering policies for items under permissible delay in payments	329-344
T. C. CHU AND W. SHIH : An interval arithmetic method for evaluating weapon system under fuzzy environment	345-355
K. C. LIN, R. J. HUANG AND Y. P. CHU : Resource allocation for multimedia traffic flows using a burstiness curve envelop	357-372
C. T. TSAO : Evaluating investment values of stocks using a fuzzy TOPSIS approach	373-396
K. S. HSU AND T. S. LAN : Production planning of a robot-served machine under probabilistic market demand and fixed selling time	397-411
E. MIGLIERINA : Stability of critical points for vector valued functions and Pareto efficiency	413-422
