# Journal of Information & Optimization Sciences

A Journal Devoted to Advances in Information Sciences,  
Optimization Sciences and Related Aspects

VOLUME 30

NUMBER 4

JULY 2009

ISSN 0252-2667

## CONTENTS

T. C. CHU AND H. Y. MA : Allocating R&D resources via a fuzzy TOPSIS approach	631-648
J. R. CHOU : A new approach for measuring human perception in relation to reading comprehension performance	649-667
M. T. CHENG : The effects of profitability and market performance on corporate financing behavior: a quantile regression approach	669-680
T. NAKAI : Fuzzy social decision procedure	681-690
R. KHORRAMSHAHGOL : Applying Taguchi method to determine the target values in goal programming	691-705
S. MASUYA AND T. NAKAI : A generalized Deegan-Packel value for multi-alternative games in case of nonhomogeneous players	707-721
D. M. TSAI : Economic production quantity with imperfect production processes and learning effects	723-742
Y. C. WENG : Research on the optimum price and advertising strategy of the monopoly manufacturers	743-755
Y. C. WENG : Research on the dynamic advertising strategies of the duopoly manufacturers — the application of advertising differential game model	757-768
H. C. TANG AND C. C. CHEN : Full period and spectral test of linear congruential generator and second-order multiple recursive generator	769-777
Y. L. WU, P. C. YANG AND J. Y. LIN : The study of the rate of returns' difference for local funds' dollar-cost averaging three times per month	779-798
Y. C. WENG : Research of the competitive strategies of manufacturers and the optimal trade policy	799-811
Y. C. WENG : Trade protection and antitrust policies taking the oligopoly industry as an example	813-822
Y. C. WENG : The competitive strategies of mixed duopoly firms and government trade policy	823-830
C. H. Chang : Analysis on the impact of taiwan outbound investments in China towards Taiwan economic and trade	831-842
K. S. CHEN, L. Y. OUYANG AND C. H. HSU : A measuring model of process capability to consider sampling error	843-853
C. W. LIAO : Consumers' behavior in the food and beverage industry through data mining	855-868
