VOLUME 14

NUMBER 3

MAY 2011

ISSN 0972-0510

CONTENTS

- J. G. LIANG, G. L. HUANG, C. C. YEH AND M. C. ZHU : The impacts of financial crisis on risk premia: Empirical evidences from 1997 Asia financial crisis 509–536
- A. H. L. CHEN AND C. C. CHYU : A memetic algorithm for multi-objective resource allocation problems 537–553
- N. H. PAN AND Y. Y. LIN : Using hybrid simulated annealing algorithm in resource constrained project scheduling problem 555–582
- C. J. JAN AND S. T. WANG : Using the Taguchi-Grey relational sequencing method to discuss success factors of the organization of international activities—with the example of a department (graduate institute) of a national institute of technology (R.O.C.) 583–593
- Y. SINGH, A. KAUR AND R. MALHOTRA : Comparative analysis of J48 with statistical and machine learning methods in predicting fault-prone classes using object-oriented systems 595–616
- H. PAZIRA AND A. SHADROKH : Comparison of LINEX and precautionary bayes estimators on the gamma distribution using censored data 617–638
- J. G. LIANG, G. L. HUANG, C. C. YEH, D. L. LIN AND H. Q. ZHAN : Multiple equilibria and the currency crisis: Evidence for Thailand 1997 financial crisis 639–657
- W. C. LU AND C. H. WU : An empirical study of volatility and trading volume of heterogeneity of traders using high-frequency data 659–673
- J. C. HUANG : Home telehealth and quality of life: Comparison between the artificial neural network and regression method 675–683
- S. C. LIN AND Y. M. LIN : Inventory of learning attitudes of vocational high school students 685–699
- P. SIMLAI : Semiparametric modeling of spatial dependence using conditional moment functions 701–708
