

**JOURNAL OF
STATISTICS & MANAGEMENT SYSTEMS**

Index of Volume 9 (2006)

Number 1, March

L. WANG AND Q. WANG : Empirical likelihood for parametric model under imputation for missing data	1-13
J. SHABBIR AND S. GUPTA : On improved estimators of K and B in finite population	15-25
K. C. HUANG, C. H. LAN AND M. P. KUO : Estimation of sensitive quantitative characteristics in randomized response sampling	27-35
V. A. PROFILLIDIS AND G. N. BOTZORIS : Econometric models for the forecast of passenger demand in Greece	37-54
K. WONGPANASSAK AND W. TANVATANAGUL : Statistical analysis of factors affecting high school students' ethics in Lamphun province (Thailand)	55-72
P. T. ARTIKIS, C. T. ARTIKIS, C. E. FOUNTAS AND P. HATZOPOULOS : Discrete renewal and selfdecomposable distributions in modelling information risk management operations	73-85
J. S. CHEN : Using integer programming to solve the machine scheduling problem with a flexible maintenance activity	87-104
T. T. LIN AND I. H. LO : Analysis of required and matching loan qualities in financial institutions	105-122
C. H. LAN AND K. T. LAN : Model, analysis and application of employee assignment for quick service restaurant	123-139
J. R. CHANG AND Y. F. HUANG : An EOQ model under trade credit and conditional cash discount	141-150
C. H. LIAO, P. C. LIN AND T. C. HSIA : Evaluating the performance of the official document	151-163
T. L. LIAO, M. C. KE, K. S. CHEN AND H. Y. WU : Performance examination of the operations of a bank teller	165-174
B. K. HOODA AND D. S. HOODA : Dimension reduction in multivariate analysis using maximum entropy criterion	175-183
F. H. F. LIU AND H. L. HAI : New way to select multiple suppliers for a supply chain	185-203
G. H. LIN : A decision-making procedure on process centering: a lower bound of the estimated accuracy index	205-224
M. SAKAGUCHI AND M. KODAMA : The optimum ordering policy for a dynamic inventory model with discrete demand	225-242

Number 2, July

- T. TANAKA : Value operators of optimal stopping problems for discrete time multiparameter Markov processes 243–267
- S. SAXENA AND H. P. SINGH : A Bayesian estimator of process capability index 269–283
- T. H. CHEN AND J. M. CHEN : Optimal pricing and replenishment policy for a deteriorating item in a two-echelon supply chain 285–299
- F. H. F. LIU AND C. H. LAI : Stability of efficiency in data envelopment analysis with local variations 301–317
- G. H. LIN : A hypothesis testing procedure on assessing process performance 319–339
- J. C. H. PAN AND M. F. YANG : Mixture inventory model in fuzzy demand with controllable lead time 341–357
- C. J. SHIEH AND I. M. WANG : Study of TQM on Internal and External Involvement – an example of Sumiko Electronics Suzhou Company in China 359–380
- K. C. LIN AND Y. J. CHEN : Nonparametric smoothing in modeling logistic regression 381–395
- C. J. SHIEH AND I. M. WANG : Study of the application of a fuzzy multi-criteria decision making method on selecting the knowledge management system 397–412
- S. H. PAO : Municipal bond insurance, capital regulation and optimal bank interest margin: an option-based optimization 413–425
- F. J. OGWU, M. TALIB AND G. A. ADEROUNMU : An analytical survey of mobile agent for resource management in a network 427–439
- S. GANESLINGAM, A. NANTHAKUMAR AND S. GANESH : A comparison of quadratic discriminant function with discriminant function based on absolute deviation from the mean 441–457
- S. GANESLINGAM AND S. GANESH : Ranked set sampling versus simple random sampling in the estimation of the mean and the ratio 459–472
- Ş. ÇABUKOĞLU : Correlation and regression analysis of the mean and standard deviation of samples of two from a gamma population 473–484
- O. M. SAAD : Finding proper efficient solutions in fuzzy multiobjective fractional programming 485–496

Number 3, November

C. J. SHIEH AND I. M. WANG : The impact of TQM Implementation on employee's performance in China — an example of Shanghai Fu-Shing company	497–518
A. A. Kamil, C. Y. Fei and L. K. Kok : Portfolio analysis based on Markowitz model	519–536
C. T. LIN AND Y. H. WANG : The congressional effect and stock market behavior in emerging democracy: evidence from Taiwan	537–553
P. C. LIN AND A. S. YANG : Service efficiency evaluation of automatic teller machines – a study of Taiwan financial institutions with the application of queuing theory	555–570
Y. T. CHANG : Application of a variable default boundary to the pricing of vulnerable European options: the use of a three dimensional binomial tree	571–589
M. H. HU AND M. Y. KU : A study on the spine layout for semiconductor manufacturing facility using simulated annealing	591–612
C. Y. Lin : Determinants of organizational innovation for logistics service providers in Taiwan	613–631
C. R. WU, C. W. CHANG AND H. L. LIN : Evaluating the organizational performance of Taiwanese hospitals using the analytic hierarchy process	633–649
C. H. HUNG : A study on group evaluation with body mass index	651–660
J. K. VISICH AND B. M. KHUMAWALA : Operations management curricula: literature review and analysis	661–687
C. H. WANG : A note on a (Q, r) model	689–698
S. KHAN : Optimal tolerance regions for some functions of multiple regression model with Student- t errors	699–715
J. Y. HUANG : On optimally coordinating supply chain inventory system for deteriorating items taking account of time value	717–735
G. D'AMICO : Statistical inference for Markov chain European option : estimating the price, the bare risk and the theta by historical distributions of Markov chain	737–754
<i>Index of Volume 9 (2006)</i>	755–757
