

Journal of Statistics & Management Systems

VOLUME 7 NUMBER 1 MARCH 2004 ISSN 0972-5010

CONTENTS

C. TSAMADIAS : The social rates of return on investment in tertiary technological education by faculty as a guide for educational planning : the case of Greece	1-23
G. S. GANESALINGAM AND S. GANESH : Statistical discrimination based on absolute deviations from the mean	25-40
K. J. CHUNG AND Y. F. HUANG : Optimal inventory policy under supplier credit policies depending on the ordering quantity	41-48
K. J. CHUNG AND C. K. HUANG : An inventory policy under trade credit from the perspective of the annual net profit	49-64
B. R. CHUANG, L. Y. OUYANG AND Y. J. LIN : A minimax distribution free procedure for mixed inventory model with backorder discounts and variable lead time	65-76
Y. F. HUANG : Exact optimal cycle time for the EPQ model taking account of time value	77-86
J. C. H. PAN AND C. C. WU : Stochastic group scheduling problems on single and multiple machines	87-98
Ş. ÇABUKOĞLU : Statistical analysis of functions from an exponential population	99-108
M. SAKAGUCHI AND M. KODAMA : Remarks on dynamic inventory models	109-119
T. NAKAI : Optimal search with time-dependent detection rate functions	121-129
T. L. CHENG, C. K. HUANG AND K. C. CHEN : Inventory model involving lead time and setup cost as decision variables	131-141
Y. F. HUANG AND H. F. HUANG : Exact optimal cycle time for the EPQ model with defective materials under inflation and time discounting	143-155
J. CHILAS, C. TSAMADIAS AND G. THANOS : Returns to scale at the University of Athens	157-172
B. M. AL-EIDEH : First-passage time moment approximation for the birth-death diffusion process to a moving linear barrier	173-181
A. SAXENA AND P. K. SAXENA : Determining cost ratio-time pareto optimal frontiers in non linear transportation problem	183-195
Y. P. CHIU : A modification of the least unit cost lot-sizing heuristic	197-207
K. C. CHEN, T. L. CHENG AND C. K. HUANG : An inventory policy of inspection and setup cost on the integrated production-inventory system for flawed items	209-220
