## CONTENTS

T. TANAKA : Baxter-Chacon topology and optimality for multivariate multiple stopping problems	209–224
J. N. HWANG AND C. E. LEE : Two-echelon distribution system with multiple demands	225–260
W. P. SUNG, M. H. SHIH AND K. S. CHEN : Evaluation method for the optimum seismic energy dissipation performance of displacement dependent seismic-active hydraulic damper	261–273
M. LEE, J. S. CHIOU, P. S. WU AND C. D. CHEN : Hedging with S&P500 and E-mini S&P500 stock index futures	275–294
Y. C. YEN : Computational approaches to variance-penalized Markov decision processes	295–304
C. KOUKOUVINOS AND S. STYLIANOU : Large supersaturated designs over prime fields	305–315
P. T. ARTIKIS AND C. T. ARTIKIS : Properties and applications in risk management operations of a stochastic discounting model	317–330
KUO-LUNG HOU : Economic production cycles and setup reduction in an imperfect production system	331–341
Y. H. LEE AND H. C. CHANG : The application of fuzzy synthetic decision approach to brand evaluation	343–353
C. T. LIN AND H. Y. YEH : The valuation of Taiwan stock index option price – comparison of performances between Black-Scholes and neural network model	355–367
K. K. AGGARWAL, Y. SINGH AND A. KAUR : A multiple parameter test case prioritization model	369–386
M. JIANG, J. H. LIN AND Y. J. FEY : International diversification puzzle: optimal bank interest margin and risk aversion	387–404
K. C. CHEN, T. L. CHENG AND C. K. HUANG : An inventory policy involving lead time and setup cost as decision variables for the lead time demand with compound Poisson process	405–413
T. L. CHENG : An inventory model involving controllable lead time for the integrated system in a compound Poisson process	415–424
D. JERWOOD, P. T. ARTIKIS AND C. E. FOUNTAS : A stochastic model for the cost of maintaining a risk frequency reduction operation	425–435
Y. LIN AND C. LIN : An EOQ model for deteriorating items with linear demand and variable backlogging	437–447
H. LEI AND S. CHUREN : The lower bound estimations of a probability minimization problem	449–458
