## CONTENTS

- F. T. CHENG AND S. C. CHEN : Critical variables in IC Packaging Wire Bonding Process (ICPWBP): Ultrasonic (US) power, force and temperature 161–182
- L. CHANG, S. C. CHEN AND C. Y. HSIEH : Capability indices for non-normal populations 183–193
- H. L. HAI AND F. H. F. LIU : Using the total vote-ranking to explore the pairwise comparison method for analytic hierarchy process 195–209
- P. C. LIN AND Y. T. CHUNG : A practical implementation of the process capability index  $C_{pm}''$  211–225
- G. H. LIN, L. W. WANG, S. HUANG, L. C. LU AND S. T. LAI : Assessing process accuracy – an inferential method about the process accuracy index 227–239
- G. H. LIN, W. K. JEHNG, K. H. HSIEH, L. W. WANG AND S. T. LAI : A Bayesian approach on monitoring process capability 241–252
- J. I. SHIEH AND H. H. WU : Using a topological Markov chain model to evaluate service quality of a university library from structural viewpoints 253–265
- M. C. LO AND M. F. YANG : Safety factor considerations in fuzzy annual demand inventory model with backorder discount 267–278
- C. Y. HUNG, L. H. KAO, J. R. YANG AND H. K. CHIOU : Multiple objective compromise optimization method to analyze the development strategies of nanotechnology in Taiwan 279–289
- M. T. UDDIN AND A. SEN : An analytical approach on non-parametric estimation of cure rate based on Type 1 291–303
- L. H. WU, J. G. LI AND W. C. HUNG : International lending bank risk and capital regulation: focus versus diversification 305–318
