Journal of Statistics & Management Systems

VOLUME 13 NUMBER 3 MAY 2010 ISSN 0972-0510

CONTENTS

W. T. LIN, S. T. WANG, M. H. LI, J. M. HUANG AND K. S. CHEN : An evaluation model for process capability of multiple-process machinery: a case study on the transfer machinery	445-466
P. SIMLAI : Estimation and inference for nonlinear time series model in the presence of unspecified conditional variance: An EF approach	467-478
K. J. CHUNG AND S. D. LIN : Some observations on effects of random defective rate and imperfect rework process on economic production quantity model	479-484
C. W. TING, M. S. CHEN AND F. C. HUANG : An analysis of pricing strategy under growing income inequality: a case of travel product	485-500
T. C. LIN, H. C. P. YANG AND T. H. CHEN : Enhancement of the predictive accuracy in logistic regression model by optimal threshold	501-513
C. LIU, S. HSU AND Y. K. HUANG : The determinants of health expenditures in Taiwan: modeling and forecasting using time series analysis	515-534
W. PIMA, P. POKAEW, C. PHOTHIRAT, S. CHANWONG, C. CHUCHOTTAWORN, S. PRASITWATTANASEREE AND P. TRAISATHIT : Risk factors analysis of drug resistance in pulmonary tuberculosis patients with relapse in northern Thailand	535-546
W. D. CHEN, C. T. HSIAO AND J. Y. PAI : Applying the amendatory method of the state space model to the exchange rate market — NT dollars against US dollars	547-559
T. H. HUANG, S. C. CHEN AND S. W. CHEN : Application of six-sigma to construct forecasting model — an example of fast-food chains in Taiwan	561-579
T. Y. CHENG, C. H. LIN AND S. S. CHUANG : A medicine or a poison? The effect of Taiwan's high-tech industrial employee stock ownership plans	581-594
A. SHAMILOV : Generalized entropy optimization problems with finite moment function sets	595-603
A. HOSSAIN AND H. T. A. KHAN : Mixtures density estimation in lifetime data analysis: an application of nonparametric Bayesian estimation technique	605-615
H. W. LEE AND I. S. YUNG : A comparative study on business architecture and business strategy selection	617-625
H. Y. CHANG, C. H. WEN AND W. T. PAN : Prediction of the return of common fund through General Regression Neural Network	627-637
A. K. C. MEI : Applying the General Regression Neural Network to Forecast Stock Closing Price	639-649
S. P. HUANG : Retailer's EOQ model in fuzzy annual demand inventory with limited storage space under partially permissible delay in payments	651-673
C. L. HUANG, T. S. HSU AND C. M. LIU : Modeling a dynamic design system using the Mahalanobis Taguchi system — two steps optimal based neural network	675-688
